Vaishnavi, Chetana. Infections of the Gastrointestinal System/Chetana Vaishnavi . - 1st ed. - New Delhi [etc.] : Jaypee Brothers Medical Publishers (P) Ltd, 2013. - 644 p.

This book Infections of the Gastrointestinal System deals with various types of infections. Infections of the GI system can be caused by all kinds of organisms inclusive of bacteria, viruses, parasites and, at times, by fungi. Thus, infections of the GI system are an important aspect of clinical practice as they are widespread in countries with poor hygiene and sanitation. The book deals not only with those agents responsible for infections in the GI tract, but also with those affecting the biliary tree, the liver, the pancreas and the peritoneum.
